

B4VK Santa Sack

You will need:

- Sturdy cotton or poly/cotton material calico or must be Christmas themed please
- **NO** slippery, stretchy or sheer material
- 60cm x 1 metre – folded in half
- If possible, age appropriate patterned material as these bags could be for Kinder High School age children
- Pyjama cord or ribbon for threading

PLEASE NOTE: You can use two pieces of fabric instead of one piece folded over.

1. Fold the top of your fabric over approximately 4.5 cm and pin. You want to fold the fabric onto the wrong side of the material as you are creating the casing for the cord. Sew along the bottom of this fold.

2. Fold your fabric in half lengthways so that the back of the fabric is facing you (your Santa Sack is inside out) and pin around the two open edges to help keep them together when sewing. Starting from just below the cord casing you have already sewn, sew along the two open sides of your Santa Sack.

3. Turn your Santa Sack the right way and pin a safety pin in one end of your cord and work it through the casing at the top of the Santa Sack. Once it comes out the other end, place a small knot in the two pieces of cord.

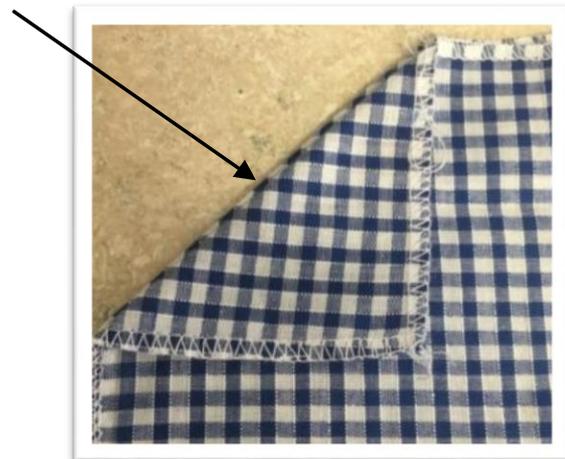

And that's it!

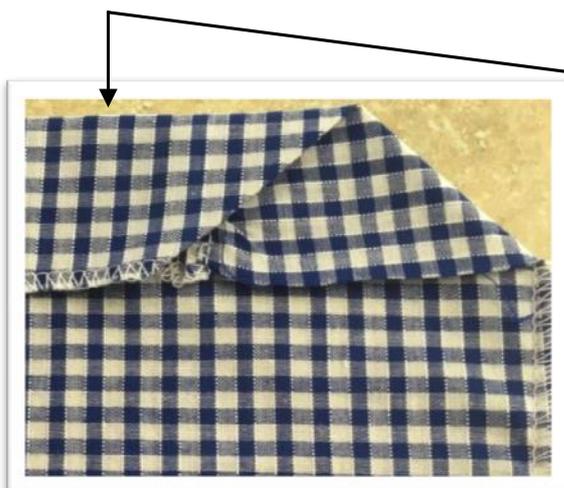

Alternatively you can use your over locker to sew the seams. Follow the below to make the casing. Its up to you with the resources you have to which way you would like to sew your Santa Sacks.

Most of all have fun making these. The children will appreciate your efforts and B4VK thank you!

1. Fold material as shown in diagrams on page 1.
2. Leaving a 4.5 cm opening at the top, on the opposite side of the fold, overlock or zig zag from this point to the fold.
3. Overlock or zig zag top edges and both sides of 4.5 cm opening.
4. Fold over a triangle of 4.5cm and then match up the other side.

5. Turn down top edge level with the triangle fold section on both edges, Press to keep in place.

6. Stitch right across the opening.
This makes the casing for the pull
cord/ribbon.

Start stitching here and follow the arrows.
Backstitch at beginning and end.

7. Thread casing with pyjama cord or ribbon making sure to leave
enough cord or ribbon to make a knot.
